

1 I Claim:

2 1. A pedicure spa chair base suitable for use with any suitable seat, which chair base
3 has a basin defined by upstanding sidewalls, said basin having a lowered zone and a raised
4 zone, the latter comprising a pair of mirror image footrests separated by a part of the lowered
5 zone, which part has the drain for the basin therein, and said basin's lower zone also having a
6 horizontally disposed water jet disposed forwardly of each footrest.

7 2. The pedicure chair base of claim 1 wherein each footrest has a raised tread thereon
8 to reduce slippage.

9 3. The pedicure chair base of claim 1 wherein each footrest is generally triangular.

10 4. The pedicure chair base of claim 1 further including a forward projecting extension
11 on each footrest, each of which extension is spaced from said sidewalls, with the respective
12 horizontally disposed water jet disposed between the sidewall and the respective extension.

13 5. The pedicure chair base of claim 4 wherein each footrest has a raised tread thereon
14 to reduce slippage.

15 6. The pedicure chair of claim 5 further including a pair of spaced water jets mounted
16 on a sidewall of said basin.

17 7. A pedicure spa chair base suitable for use with any suitable seat, which chair base
18 has a basin defined by upstanding sidewalls, said basin having a lowered zone and a raised
19 zone, the latter comprising a pair of mirror image raised tread bearing footrests, each footrest
20 having a forward projecting extension, said footrests and said extensions being separated by a
21 part of the lowered zone, each of which extension is spaced from a sidewall of said basin;
22 said basin's lower zone also having a horizontally disposed water jet disposed both
23 forwardly of each footrest, and between a sidewall and an extension.

24 8. The pedicure spa chair base of claim 7 wherein a drain for the basin is disposed in
25 the lowered zone between said footrests.

26 9. The pedicure spa chair base of claim 8 further including a chair mount that permits
27 a seat mounted thereon to rotate from side to side.

28 10. The pedicure chair of claim 8, further including a pair of spaced vertically
29 disposed water jets mounted on a basin sidewall.

30 11. The pedicure spa chair base of claim 3 further including a chair mount that permits
31 a seat mounted thereon to rotate from side to side.

32 12. The pedicure spa chair base of claim 7 wherein the basin is configured round.

33 13. The pedicure spa chair base of claim 7 wherein the basin is configured square.

34 14. The pedicure spa chair base of claim 11 having a seat attached to said seat mount.

1 15. A pedicure chair comprising a seat attached to a chair base which base has a
2 circular basin defined by an upstanding sidewall, said basin having a lowered zone and a
3 raised zone, the latter comprising a pair of mirror image raised tread bearing footrests, each
4 footrest having a forward projecting extension, said footrests and said extensions being
5 separated by a part of the lowered zone, each of which extensions is spaced from the
6 sidewall of said basin;

7 said basin's lower zone also having a horizontally disposed water jet disposed both
8 forwardly of each footrest and between the sidewall, and an extension and having a pair of
9 spaced vertically disposed water jets mounted on the basin sidewall.

10 16. The chair base of claim 1 further including a front bumper, and a water faucet.

11 17. The chair base of claim 15 further including a raisable front bumper, and a water
12 faucet.
